AI Learning Resources

1. Python Learning Playlist

An ordered Python learning resource for building programming fundamentals and practical development skills.

https://youtube.com/playlist?list=PLKnIA16_Rmnb1RYR-iTA_hzckhdONtSW4&si=iFUVwQ-i9arYMjEz

2. Data Analyst Bootcamp with SQL, Power BI, Python, Excel, and Projects

A long-form bootcamp covering SQL, Excel, Tableau, Power BI, Python, Pandas, projects, portfolio creation, and job preparation.

<https://youtu.be/PSNXoAs2FtQ?si=f9h-4FP2dONbqhYg>

3. Machine Learning Learning Playlist

A structured playlist intended to develop core machine-learning concepts, workflows, and implementation skills.

https://youtube.com/playlist?list=PLKnIA16_Rmnb1RYR-iTA_hzckhdONtSW4&si=AQ1td8bSZbnbYibt

4. Deep Learning Learning Playlist

A deep-learning resource focused on neural-network foundations, training concepts, and practical AI understanding.

https://youtube.com/playlist?list=PLKnIA16_Rmnb1RYR-iTA_hzckhdONtSW4&si=TtWtWq-6UI2UCFij

5. Generative AI Learning Playlist

A generative-AI learning resource covering LLM applications, prompting, RAG, agents, and modern development workflows.

https://youtube.com/playlist?list=PLKnIA16_Rmnb1RYR-iTA_hzckhdONtSW4&si=oAEAd_fii3ECytsQ

6. NLP and Transformer Architecture

A detailed explanation of Transformers, self-attention, positional encoding, encoder-decoder blocks, and decoding.

<https://youtu.be/3bPhDUSAUYI?si=rYlwxp4SY0Y3rTcG>

7. Agentic AI Learning Playlist

A playlist for understanding and building AI agents, including tools, reasoning workflows, orchestration, and implementations.

https://youtube.com/playlist?list=PLKnIA16_Rmnb1RYR-iTA_hzckhdONtSW4&si=fl8A99RLb0n7FRE5

8. Practical AI Projects Playlist

A project-focused collection for converting AI concepts into working applications and portfolio-ready systems.

<https://youtu.be/pEiq3sl8dYQ?si=AWAy0qw4yvHqeTW3>

9. Agentic Coding with Claude Code

An introduction to production-oriented AI-assisted development with Claude Code, agentic workflows, testing, and deployment.

https://youtu.be/K_KIQA849cs?si=ThscjLhxzB7pjbIJ

10. Model Context Protocol (MCP) Learning Playlist

A resource for learning MCP concepts and connecting models or coding agents with external tools and data.

https://youtube.com/playlist?list=PLKnIA16_Rmva_oZ9F4ayUu9qcWgF7Fyc0&si=pzyITHxyGEh8OK29

11. Build GPT from Scratch

Andrej Karpathy builds a small GPT-style Transformer from scratch, explaining tokenization, attention, training, and text generation in code.

<https://youtu.be/kCc8FmEb1nY?si=f09rOawS2c49yRdz>

12. Retrieval-Augmented Generation (RAG) Explained

A practical explanation of RAG, including indexing, retrieval, augmentation, generation, and its role in improving LLM responses.

<https://youtu.be/X0btK9X0Xnk?si=oG0-zvPapp63NuFK>

13. Top 10 RAG Frameworks on GitHub — Medium Blog

A data-driven ranking of popular open-source RAG frameworks and guidance on choosing frameworks for different use cases.

<https://florinelchis.medium.com/top-10-rag-frameworks-on-github-by-stars-january-2026-e6edff1e0d91>

14. FastAPI Learning Playlist

A FastAPI learning resource for creating production-ready Python APIs, validation, authentication, and deployment workflows.

https://youtube.com/playlist?list=PLKnIA16_RmvZ41tjbKB2ZnwchfniNsMuQ&si=TYjhdUfy1avM6v05

15. LLM Evaluation Learning Playlist

A playlist introducing systematic LLM evaluation across model quality, RAG, agents, safety, datasets, and operational metrics.

https://youtu.be/6W92_t9FveA?si=aQ6HcDuRmLApEw1L

16. LLM Operations (LLMOps)

An introduction to operating LLM-powered systems in production, including quality monitoring, guardrails, latency, and cost control.

<https://youtu.be/NuWRAiYnjxw?si=-7BTlv-CX4pkCCYH>

17. LLM Gateway with LiteLLM

A LiteLLM-based guide to unified APIs, fallbacks, routing, caching, load balancing, cost tracking, and observability.

<https://youtu.be/RN3baOpNA6w?si=CCzGqonE9FnFVswp>

18. LLM Gateway with Mesh API

A MeshAPI course covering multi-model access, RAG, multi-agent workflows, multimodal generation, MCP, and usage monitoring.

https://youtu.be/yAczx0_NtyU?si=X1YsCaaEjYGjSkaG

19. AI Guardrails and Security

An AI security masterclass covering prompt injection, jailbreaks, PII protection, guardrails, evaluations, memory, AgentOps, and scaling.

<https://youtu.be/rQE3w8Qjx98?si=5x9gCpgAzcw8vihT>

20. Tracing and Observability with Arize AI

An OpenTelemetry and OpenInference guide for tracing AI applications through instrumentation, spans, context propagation, sampling, and collectors.

<https://youtu.be/fHGSxOhWO-g?si=axuOUf8t1GIGWBhl>

21. Loop Engineering and Harness Engineering

An explanation of reliable agent loops and the surrounding harness, including tools, memory, MCP, evaluation, observability, recovery, and cost optimization.

<https://youtu.be/3uO6V05LBjU?si=a3QEvjOF6wfflDoe>

22. Forward Deployed Engineer (FDE) Roadmap

A roadmap for becoming an FDE by combining Python, APIs, SQL, Docker, cloud, RAG, enterprise integrations, and customer-focused delivery.

<https://youtu.be/SOU28VT-Ns4?si=9TyREkV0S7G72Q0p>

23. GCP Zero to Hero Course

A practical GCP roadmap covering IAM, storage, compute, networking, databases, containers, GKE, CI/CD, Terraform, serverless, and cost optimization.

<https://youtu.be/N5rXROueKhW?si=S6A8Ruq238LxCGGz>

24. Azure Zero to Hero Course

An Azure roadmap covering fundamentals, compute, networking, storage, identity, Azure DevOps, AKS, security, serverless, Terraform, AZ-900, and AZ-104.

<https://youtu.be/10jm7Waan8M?si=cx-Uu8hxovhQaf5h>

25. AWS Zero to Hero Course

A DevOps-focused AWS roadmap covering IAM, EC2, networking, security, S3, infrastructure as code, CI/CD, monitoring, Lambda, containers, scaling, databases, and interviews.

https://youtu.be/GkKNxyLp_V0?si=dLbrKOY-q7WaCb9A
